Concentrated Laundry Emulsifier and Spotter

Product Number 4567

Description

A liquid emulsifier to be used on all classes of laundry work for the better removal of most stains. Highly effective on greasy, oily soils such as butter stains, salad dressings, make-up, collars/cuffs, and shop towels. Can be added to the break operation with an alkali or used as a pre-spotter or pre-spray. Can be used in warm water or hot water without a loss in performance. Helps reduce the amount of detergent used to break up tough soils and stains.

Directions

FOR PRESOAKING: Use 1 ounce per 5 gallons of water in a soak solution. Place in stained linens and allow to soak overnight.

CUFF AND COLLAR TREATING: Make up a solution of 2 ounces per quart of warm water to make up a cuff and collar pre-spray. Spray collars and cuffs in marking department. This will allow ample time to break soils prior to washing.

WASHWHEEL USE: To provide an added boost to your break cycle, add 2-3 ounces per 100 pounds of linens in with your normal break product. This will help to loosen soils and allow for lower detergent usage. For heavier soils such as shop towels or kitchen aprons, add 3-4 ounces to the wheel with a suitable high alkaline break.

Technical Data

Form	Liquid	Biodegradable	Yes
Color	Blue, Clear	pH.....	Neutral
Scent.....	Pleasant	Viscosity	Medium
Solubility	Excellent	Density	8.2 lbs/gallon

Product Category: Laundry Specialties. **DOT Shipping Name:** Compound, Cleaning, Liquid

DANGER

HAZARDS: Harmful if swallowed. Causes serious eye damage.

PRECAUTIONS: Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves and eye protection.

RESPONSE/FIRST AID: Have product container or label with you when calling poison control center or physician. Immediately call a POISON CENTER/doctor. **IF SWALLOWED:** Rinse mouth. Do NOT induce vomiting. Call a POISON CENTER or doctor/physician if you feel unwell. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison control center or physician for treatment advice. If eye irritation persists, get medical advice/attention. **IF ON SKIN (or hair):** Remove immediately all contaminated clothing. Rinse skin with water/shower. Wash with plenty of soap and water. Wash contaminated clothing before reuse. If skin irritation occurs, get medical advice/attention. **IF INHALED:** Remove victim to fresh air and keep at rest in a position comfortable for breathing. If breathing becomes difficult, call a physician.

STORAGE & DISPOSAL: Dispose of contents/container to trash after rinsing container.
